

## Delaware Climate Leadership Academy CC-P® Prep Series (Spring 2022 Schedule)

Powered by:

### CC-P® Program Details

Delaware Department of Natural Resources and Environmental Control, in partnership with the Association of Climate Change Officers (ACCO), is offering a series of live online training programs to help participants build competencies to effectively integrate climate change into their decision-making and professional activities. This series provides participants with training in a peer cohort environment that will enable them to integrate climate change into their decision-making and prepare them for the [Certified Climate Change Professional® \(CC-P®\) credential](#) and [CC-P® Candidate](#) exams by leveraging a combination of video homework, live training and interactive exercises/discussions.

Participants will learn from experts and practitioners about the implications of climate change, and related opportunities. In addition to climate change and sustainability practitioners, the curriculum has been designed to benefit professionals worldwide across a broad range of occupations in the public and private sectors, higher education and the NGO community.

Key Skills and Competencies Addressed	Live Online Program Features
<ul style="list-style-type: none"><li>Recognizing climate impacts on an organization's operations, mission and bottom line</li><li>Applying risk management to climate change</li><li>Managing short-term and long-term uncertainty</li><li>Tailoring communication to different audiences</li><li>Leading and supporting organizational change</li><li>Understanding resource consumption and systems implications</li><li>Assessing the policy landscape and developing an action plan</li><li>Collaborating with peers to tackle real-world challenges</li></ul>	<ul style="list-style-type: none"><li>A blend of self-study resources and live online instruction</li><li>Case studies from practitioners and insights from fellow CC-P® professionals</li><li>A program structure designed to guide you through the certification process</li><li>The opportunity to expand your network by connecting with fellow attendees</li><li>Assignments that help reinforce program sessions</li><li>Sample test questions</li><li>Real-time Q&amp;As with instructors and facilitated discussions among participants</li></ul>

### Who Should Enroll

Leaders and staff in state and local government agencies with roles related to resilience, sustainability, environment, engineering, planning, infrastructure, energy, health, agriculture, emergency management, operations, facility, or risk management. Future training cohorts will become available to elected officials, nonprofit organizations, faculty of academic institutions, and industry sectors.
